Call to Order

New Business: Marc Dale provided feedback on the most effective process to operationalize the change desired to PLG 200. For seamless enrollment, an enforced prerequisite of PLG 110 or concurrent enrollment will allow students to enroll without Division permit assistance. With a corequisite structure, even if a student has taken PLG 110, Banner will still require a coreq override permit to allow registration in PLG 200 for a semester in which PLG 200 is being taken. Given this functionality, a Division decision was made to alter the proposal to avoid using the coreq permit.

Learning Outcomes, Curriculum and Program Development

Dean: Dr. Kathleen Gorski

Announcements: SGN 101 and SGN 102 have been rearticulated as 1.1 courses. This was done through the Form 13 process and approved by ICCB. This change does not require Curriculum Council approval, however, to update Curricunet to reflect this change, a proposal will need to be initiated. Please ignore all emails for approval for these courses as this process is being completed in Curricunet.
